BS Software Engineering 2021-2025

COMSATS University of Islamabad
Vehari(campus)

ICS 2019-2021

Govt Girls Degree College Vehari

PROFILE

I'm an energetic, ambitious person who has developed a mature and responsible approach to any task that I undertake, or situation that I'm presented with. As a undergraduate in SOFTWARE ENGINEERING, I'm excellent in working with others to achieve a certain objective on time and with excellence.

PROJECTS

Weather Forecast App

Developed a responsive Weather Forecasting App using Figma, JAVA, Python, and PHP. Implemented features current and future weather conditions, including temperature, humidity, and wind speed. Included features:

- Real-time weather updates
- Hourly and daily forecasts
- Weather alerts and notifications
- Location-based weather tracking

Restaurant Digital Menu Based Project

Developed a responsive website with C# and MYSQL. Including features:

- Customer can place order digitally in restaurant
- Can select table no
- Can take printed total bill of order

Online food Order System

Developed a responsive website using CSS and PHP. Including features:

- Customer can place order by select items, and choose payment method
- Can track order
- Customer can review about restaurant and items.
